

DUN'S TRADE REVIEW

Prices of Manufactured Products Slowly Recede.

GOVERNMENT CROP REPORT.

Actual Consumption of Iron Much Smaller, Though the Furnaces Continue to Turn Out an Increased Stock—Wheat Comes Forward Rapidly—Wool Has Not Advanced—The Week in Business.

NEW YORK, Dec. 14.—R. G. Dun & Company's weekly review of trade says:

It has been a very quiet week without any disturbance. Prices of manufactured products slowly recede from the highwater mark of speculation and no material increase in demand is now expected until after the holidays, but there is general confidence that greater activity will then appear and that works which have stopped a little earlier than usual will again be called into operation.

The government crop report caused scarcely a ripple of interest, though indicating 6,400,000 bales less of cotton, and a larger acreage than had been expected of winter wheat. The great supplies of cotton brought over from previous years render it unimportant whether the yield of 1895 was 7,000,000 or 6,000,000 bales, except as affecting future planting and the extensive organizations of planters to keep back their cotton deprives small receipts of their natural influence. Whether from that cause or not receipts have recently been over 10 per cent smaller than last year, but takings of spinners and exports are also smaller. The price rose three-sixteenths and closed at 8.56 cents.

Wheat continues to come forward so rapidly that past estimates of yield, whether official or unofficial, are discredited. Western receipts were 6,003,404 bushels for the week, against 3,403,611 last year, while Atlantic exports, flour included, were but 1,846,955 bushels, against 2,357,218 last year. At current prices, it seems improbable that marketing has been out of proportion to yield and prices for the week show little change.

Iron furnaces in blast Dec. 1, turned out 216,797 tons weekly, against 217,806 Nov. 1, with increase of 8,000 tons in stocks unsold. But actual consumption is much smaller than the output at present, and prices again declined. No. 1 anthracite to \$13.75, Bessemer pig at Pittsburgh to \$12.60 and grey forge to \$12. Finished products are weak and sell below quotations, though quoted prices average about half of 1 per cent for the week. Heavy orders by the Rockefeller interest for plates and other material to build vessels for transportation of Mesaba ore next year have strengthened the market somewhat, but the demand at the east is very light and most of the works have shortened force considerably, while at Pittsburgh structural forms, plates, sheets and pipe are in light demand and some bar mills in the valley have shut down for want of orders. Higher prices are expected for ore and coke, and it is believed this will cause an upward turn in iron. Copper is much demoralized with large sales of lake at 10 1-2 cents, lead is lower at 3.27 1-2 and tin lower at 18.55 cents with increasing visible supply.

Wool has not advanced with London sales as was expected and 5,536,100 pounds have been sold, 2,303,700 foreign, against 5,479,300 in the same week of '92, of which 1,413,500 were foreign. The slow market for goods hinders dealings. In men's goods there is little business as yet, at about last year's prices in low grades, and the largest maker of city worsteds has reduced prices to last year's since the opening. Business in cotton has not gained, and print cloths are lower at 3 1-8 cents, while a few more reductions are noted in prices of other goods. The manufacture has had a highly profitable season, though dull now.

Failures for the week have been 338 in the United States, against 349 last year, and 54 in Canada, against 40 last year.

BY WAY OF HAVANA.

Insurgents Get the Worst of It by This News.

HAVANA, Dec. 14.—The columns of troops commanded by Gen. Oliver and Palanca and others are moving toward Manicaragua and forming a circle around the main body of insurgents, commanded by Gomez and Maceo, in the province of Santa Clara.

At Seiba, in the Trinidad district of Santa Clara, Colonel Rubin has routed the insurgents under Quintin Banera. The troops lost three killed and had 30 wounded, including three officers seriously wounded. The insurgents had 27 killed and many wounded.

Heavy musketry firing, lasting several hours, has been heard in the direction of Remonto, province of Santa Clara. No details of the engagement have been received. General Campor is at Cienfuegos, the seaport of Santa Clara.

WELLSBORO, Pa., Dec. 14.—Mrs. Charlotte Howell was last night acquitted of the murder of Miss Libbie Knapp. The trial has been one of the most sensational in the history of crimes in this commonwealth.

Priest's Suicide.

St. LOUIS, Dec. 14.—Rev. John Cosgrove, a priest recently deposed by Archbishop Kain, was horribly mangled by a switch engine here Thursday, and died at a hospital. It is thought he suicided.

HOUSE COMMITTEES.

Mr. Reed Working on Them—The Probable Chairmanships.

WASHINGTON, Dec. 14.—Speaker Reed did not appear at the capitol yesterday, and it was announced that he had remained at his hotel to work on the formation of the committees. It has been quietly hinted about that Mr. Reed will not give out the committees until the end of next week, and that immediately thereafter congress would adjourn for the Christmas holidays. This being the program, quite a number of members see no necessity for remaining in Washington longer, and some of them will return to their homes this week.

Although nothing seems to be absolutely known concerning the chairmanships of the leading committees, over which there is a contest, the impression continues to grow stronger daily that Mr. Dingley of Maine will be chairman of ways and means, instead of Mr. Payne of New York, who, 10 days ago, was supposed to be booked for the leadership of the majority of the floor. This week Mr. Dingley has been recognized by the speaker to make the motions which naturally devolve upon the floor leader, and this, with other circumstances, are accepted as almost, though not quite, conclusive evidence that he is to be chairman of ways and means.

Mr. Milliken and Mr. Boutelle of Maine are also in line for chairmanships, the former being the ranking member on public buildings and grounds, and the latter on naval affairs. In the Fifty-first congress all three headed committees. Almost as much uncertainty exists concerning the chairmanship of appropriations committee as ways and means. Next to the latter, it is the most important committee in the house. The contest lies between General Henderson of Iowa, the present ranking member, and Mr. Cannon of Illinois, who would have been the ranking member had he not failed of election to the Fifty-second congress. At first, the chances seem to favor Mr. Henderson. They now seem to point to Mr. Cannon, and the argument is being urged that it might not be good policy to permit Iowa to be at the head of the appropriations committee in both the house and the senate, Senator Allison holding the appropriations committee in the senate. Mr. Cannon, however, may be placed on the committee on rules, if not at the head of the appropriations committee.

With Grosvenor of Ohio, who, it is said, has retired from the contest for chairman of river and harbors, out of the way, this important chairmanship is supposed to lie between Mr. Hernan of Oregon and Mr. Hooker of New York. The chairmanship of the following committees seem to be almost certain: Foreign affairs, Hitt, Illinois; judiciary, W. A. Stone, Pennsylvania; Pacific railroads, Powers, Vermont; banking and currency, Walker, Massachusetts; interstate commerce, Hepburn, Iowa; elections, which will probably be divided, Daniels, New York, and naval affairs, Boutelle of Maine.

TWO MURDERS

Must Be Put to the Account of Harry Hayward, Says Blitt.

MINNEAPOLIS, Dec. 14.—In an interview at the state prison Marceller Blitt, who killed Miss Gilling at the instigation of Harry Hayward, says Harry also caused the murder of Lena Oleson, who was brutally killed at Duluth in June, 1894. He says Lena was at one time employed at the Ozark flats, where Miss Gilling lived, and that the man who took her to Duluth and killed her was afterward found floating in the Mississippi here. He claims he knows Hayward put up the job and was the beneficiary.

Rough Weather at Sea.

St. JOHNS, N. F., Dec. 14.—Incoming shipping reports frightful weather. The steamer Ulunda, from Liverpool, never met such storms before. The coastwise steamers have been unable to leave the harbors for 30 hours. The schooner Effie Lake is ashore at Bay Bulls. The steamer Portia, running between New York, Halifax and this port, is 28 hours overdue from Halifax and must have been driven out to sea and has probably broken down. Much apprehension is felt here about her.

The Cruiser Brooklyn.

PHILADELPHIA, Dec. 14.—The armored cruiser Brooklyn was towed from Cramp's shipyard to the League island navyyard yesterday, and placed in the drydock. This ship's bottom will be scraped and painted and her big twin propellers will be attached to the shafts. Since the Brooklyn was launched, 10 weeks ago, rapid work has been done on her, with the result that she will be ready for her preliminary trial soon after she leaves the drydock.

Stonemasons' Strike Off.

NEW YORK, Dec. 14.—The strike of the stonemasons, which began Tuesday, was declared off yesterday. The result is a victory for the men. About 1,000 men were on a strike, and most of them went back to work yesterday. The strike was for \$3 a day of eight hours. Eight firms sent their representatives to the headquarters of the strikers to sign the agreement. A few firms persist in holding out.

Will Not Join the Trust.

ANDERSON, Ind., Dec. 14.—President Doxey of the American Plate Glass company has announced that \$100,000 will be expended on the Alexandria factory, in adding a polishing department and more steam power. BLASTING DISASTER.

Four Men Blown to Atoms, Four Others Missing.

DEADLY WORK OF DYNAMITE.

After Waiting Fourteen Minutes For the Charge to Go Off, the Laborers Were Ordered by the Foreman to Investigate. Three Kegs of Powder and Four Sticks of Dynamite Then Let Go.

KNOXVILLE, Dec. 14.—By a premature explosion of powder and dynamite at 3 o'clock Thursday afternoon four men were killed at Lafollette, Campbell county. Four other men are missing and their bodies are being searched for in the mass of earth and rock that was dislodged by the explosion.

The names of the dead are: Andrew Bates, white, aged 20, Lafollette.

Neil Dabney, white, aged 25, Lafollette.

John Webb, aged 21, Middleboro, Kentucky.

—Pr. J. J. Jellie, Tenn. The explosion occurred on the works of the Lafollette railroad, near Lafollette, where a new road is being projected from Lafollette to Jellico. A large force of men were at work blasting for a cut. Three kegs of powder had been placed in a 16-foot aperture and four sticks of dynamite were also added to the deadly charge.

A fuse was attached to the powder and the men ran from the place to a safe distance to await the result. They waited 14 minutes and the charge failed to go off. The men were then ordered to break into the hole by the foreman to readjust the fuse. They obeyed the order, all being apparently satisfied that the fire had become extinct. Just as they re-entered the hole, however, the terrific explosion occurred, and the earth and stone for many yards around were dislodged and thrown into conglomerate mass with the remains of the unfortunate victims.

At the latest received last night a rescuing force was still at work removing the dirt and rock.

LATE CAMPAIGN

Urged by Business Men From All Parts of the Country.

PHILADELPHIA, Dec. 14.—W. F. Harry, chairman of the Democratic national committee, yesterday afternoon requested the secretary of the committee to notify the members thereof to assemble in Washington on Jan. 16 next for the purpose of selecting the time and place for holding the next Democratic national convention.

Chairman Harry has received letters from commercial bodies in 50 cities urging the national committee to select a late date for the convention. Business people contend that a long campaign unsettles trade and they therefore want the political battle made as short as possible. It is believed that a date not later than the middle of July will be selected.

Was a Stuffer.

INDEPENDENCE, Mo., Dec. 14.—H. A. C. Jeffre was found guilty of stuffing ballot boxes at the last county election and his punishment was fixed by the jury at three months in the county jail. Jeffre was a judge of the election at Kansas City, and was indicted for frauds with a number of others. The case was tried before Judge Neville of Springfield, Mo., who was called by Judge Wofford of this county upon an affidavit being filed that a fair trial could not be had before the Jackson county judges.

Pawmed His Necktie to Suicide.

LEAVENWORTH, Kan., Dec. 14.—A stranger went to a pier of the west end of the new bridge, shot himself three times in the neighborhood of the heart, and fell off into the river. Letters on his person gave his name as W. H. Southern of Kansas City. He came to Leavenworth on Tuesday night and spent the night carousing. He pawmed his necktie for 10 cents to go to the bridge to kill himself.

Caine's Opinion of Us.

LONDON, Dec. 14.—Hall Caine, the novelist, on his return to England, says: "The copyright act has not appreciably affected English fiction in the United States." He said he had seen no anti-English spirit in America, although he had found much to humble the spirit of Englishmen. He expressed a very high appreciation of the greatness of the American character.

NORTH ATLANTIC SQUADRON.

It Will Rendezvous in Southern Waters, Though No Threat is Intended.

WASHINGTON, Dec. 14.—The program of the maneuvers and movements of Admiral Bunce's North Atlantic squadron has at length been arranged and the itinerary was given out at the navy department yesterday. The squadron will depart from the rendezvous at Hampton Roads on the 21st inst., and it is expected to return to that place May 12, next year. The first stop will be at St. Thomas, Dec. 27, and after that the ships will put into a number of ports on the Gulf of Mexico and Caribbean sea.

During the stay at Trinidad the squadron will have drills and target practice in the bay of Paria, just off the Venezuelan coast and the territory which is now in dispute between Great Britain and Venezuela. It is a matter of note, however, that at no point in the itinerary does the squadron enter a Venezuelan port and Admiral Bunce doubtless is influenced in this respect by the wishes of the department of state for the assemblage of an American fleet in Venezuela at this juncture might be construed as a threat and tend greatly to complicate the negotiations now in progress with the British foreign office over the Venezuelan boundary question.

To prevent any such impression from gaining ground the navy department has been particular to state explicitly that the winter maneuvers of the North Atlantic squadron are absolutely uninfluenced by any foreign issues, and are simply in continuance of the summer drills as outlined last spring.

POLICE ABUSES.

Nothing of a Sensational Character Developed Yesterday.

PHILADELPHIA, Dec. 14.—Yesterday's session of the senate investigating committee was devoted entirely to the inquiry into the abuses that have crept into the police bureau. Nothing of a sensational character was developed. A number of witnesses were examined showing the active part the police take in politics. The larger portion of the session was spent in showing that frequently policemen are discharged from the force for trivial reasons while in other instances men guilty of serious offenses are retained on payment of a small fine. In this respect a colored policeman said he was discharged because he left his beat for three minutes to get some medicine. The committee adjourned until next Wednesday.

SHOT AND ROBBED.

Eleven Apaches From San Carlos Agency Waylay Two Miners.

ALBUQUERQUE, N. M., Dec. 14.—It is reported that two miners were found ambushed yesterday beside the trail between White Oaks and Jicarilla. One was dead and the other mortally wounded. They are thought to be Apaches from the San Carlos agency.

Pingree Springs a Test Case.

DETROIT, Dec. 14.—Mayor Pingree got a tree ride yesterday morning through refusing to pay fare on a Citizen's company's car, unless the conductor should sell him six tickets for a quarter. Last night he repeated the experiment twice and was put off each time. The conductor who allowed the mayor to ride free has been temporarily suspended. The mayor intends to make a test case of the question, although there is no ordinance requiring the company to sell six tickets for a quarter.

CAREER TERMINATED

Said Pasha Out of Favor With Turks, Old and Young.

IN SNOWS AROUND ZEITOUN

Turks Will Have to Pass the Winter—Armenians Are Too Distrustful of the Turks to Lay Down Their Arms on the Latter's Promises—Fear of a Massacre at Aleppo.

CONSTANTINOPLE, Dec. 14.—At the meeting of the ambassadors on Tuesday last the reports received from Armenia at the different embassies were compared and thoroughly discussed with the view of enabling the different representatives to compile full reports on the subject for the use of their governments. It is believed that if the result of this conference is published it will show an unparalleled state of affairs. The misery and distress in Armenia is said to be more severe than the most vivid reports have made out, and the number of people massacred is said to be greater than anybody here really believed.

Letters received here from Aleppo say that there is serious fear of a massacre of the Christians unless the powers intervene promptly to prevent it.

News was also received yesterday from Zeitoun that the Turkish troops from Marash are surrounding the Armenians, cutting off their lines of communication and preventing them from obtaining reinforcements, provisions and the supplies of arms and ammunition which are understood to have been forwarded to them from many parts of Asiatic Turkey. When the town of Zeitoun is completely surrounded, it is believed that the Armenians will quickly be starved into submission, although their friends say they have provisions enough stored in the town to last them until spring, and that the Turks will have to pass the winter in the snows around Zeitoun.

A Turkish official who is familiar with the situation at Zeitoun said yesterday that the Armenians there were inclined to surrender to the Turks, but they distrusted the promises of the latter that their lives would be spared if they laid down their arms.

Izzet Bey, the first chamberlain of the sultan, and the great favorite, recently, of his majesty, has been replaced by Hadjiali Bey and Enni Bey at the palace, but the last named Bey has been arrested in consequence of the charges brought against him by Said Pasha, the ex-grand vizier.

Izzet Pasha recently presented the sultan with a long report upon the deplorable situation of the country. The sultan refused to read it, whereupon Izzet Pasha resigned, but the sultan refused to accept it. Izzet has tendered his resignation four times since then, but each time the sultan refused to accept it. Izzet, however, persists in resigning.

Fresh placards have been posted in different public places proclaiming the policy and demands of the Ottoman Progress union. The title of the union outlines the idea of the people with whom the elements originated. The police promptly tore them down and are hunting for the people who posted them on the walls.

The young Turks warmly blame Said Pasha for leaving the British embassy, and hope he will insist upon his announced intention of going abroad. On the other hand the old Turks blame him for taking refuge in the embassy. The result is that Said Pasha's prestige in the eyes of the Turks is considered to have been considerably shaken and it is believed that his political career is terminated.

It transpired yesterday that the British vice consuls at Van Sivas, who have been here for some time past awaiting their exequators, have not received these documents in spite of the long delay and they started for their posts on Wednesday last without them.

REGISTER of the Land Office Swango says he will show he has been grievously wronged by Ex-Governor Brown and his State Inspector and Examiner, who claim Mr. S. is short about \$900 in his accounts. This same Inspector and Examiner made a report a year or so ago in regard to the Maysville and Lexington Turnpike Company in which he demonstrated that he did know as much as he imagined he did, as he had to come out in a correction.

"Don't Crowd."

Governor Bradley was Friday morning forced to issue a bulletin to hold back office seekers who are monopolizing his time.

The bulletin announced that the Governor has selected his Private Secretary without naming him. It is also stated that no appointments which have to be confirmed by the Senate will be made until that body meets in January.

The Governor does this so that applications will give him a chance to write his message.

A POINTER FOR MERCHANTS.

If You Want the Trade, Advertise—It Pays, as All Well Know.

A party of shoppers from Bracken County were in Maysville Friday securing some of the bargains advertised in the BULLETIN. One of them said: "We usually do our shopping in Augusta, as it is seven miles nearer than Maysville, but we saw the Bee Hive's big advertisement in the WEEKLY BULLETIN, and that's what brought us here to-day."

Here's a pointer for other Maysville merchants. If they would advertise in the EVENING and WEEKLY BULLETIN they would reach all the surrounding country and draw more trade here.

The Christmas trade is already living things up, and now is the time to let the people know what you have in the way of bargains. You can do this by advertising in the BULLETIN.

ALLEN THURMO, colored, was fined \$10 and costs in the Police Court Friday for disorderly conduct. Warren Gardner was tried for shooting in city limits, and was acquitted.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 650,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 750,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, twenty-one (21) one-cent stamps, to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1,008 pages, profusely illustrated. The free edition is precisely the same as that sold at \$1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

UNCLE SAM'S HOME.

Another Interesting Letter From Our Washington Correspondent.

Opening of Congress—The President's Message—Speaker Reed—The Maysville Man—Gossip.

[Correspondence of the Bulletin.]
WASHINGTON, D. C., December 7th, 1895.

The opening of Congress and the President's message were the absorbing events at the Capital the past week. The scene at the Capitol December 2nd was picturesque, brilliant and interesting. In spite of the rain the crowd was immense, and thousands could not get in hearing distance of the proceedings, and witness the inauguration of Reed as Speaker, and the return to Federal power of the g. o. p.

All interest centered in the House of Representatives. The Senate, popularly known as "The American House of Lords," was a mere side issue, an annex, so to speak, which nobody cared to suspect, until the big comedy ended in the House.

Promptly at the noon hour the House was called to order by Clerk Kerr. After prayer by the Chaplain, the preliminaries and formalities were enacted for the election of the Speaker.

The large Republican majority of course precluded any contest by the Democrats, and the vote being announced, Thomas B. Reed was declared elected Speaker.

Amid great applause Mr. Reed was conducted to the chair on the arm of his Democratic predecessor (Ship).

Ex-Speaker Crisp extended his hand and bowed to the new Speaker, and Tom Reed was again in the saddle.

Thomas Brackett Reed is the champion heavy weight political pugilist of the age. His strong points are "sarkasm," wit, courage and firmness. He is ball headed, smooth faced, and weighs 230 pounds. He enters the Republican paddock for the Presidential stakes in good form, alert, and in fine fettle, with the betting slightly in his favor. The new Speaker rides a bicycle for outdoor exercise; in the House, he will probably ride that poor little meekly Democratic minority which he will have at his mercy.

These are sorry times for Democracy, but thank the Lord we still have Grover in the White House, and the next dash out of the ballot box we are going to win.

The fifty-fourth Congress has 356 members in the House of which just one-half of them, 178, are new members and 178 old members.

Nine years ago, Mr. Reed considered his candidacy for the Presidency as a joke, as the following extract from a humorous speech he made will show:

"I'm running for the Presidency," continued Mr. Reed at that time (this was in the winter of 1887-8), upon a broad and comprehensive platform, and if I don't get the nomination it won't be because I'm not willing to give satisfaction to people of all colors, races, religions, and political views. I believe in giving every man equal rights and a fair show. I believe that it is the duty of Congress to pass a judicious silver bill, and am in favor of such a revision of the tariff as shall give the capital and labor employed in the manufacturing industries of the country every protection they ask, and at the same time place the luxuries as well as the necessities of life within the reach of all. I believe that every man, woman and child should receive a pension who is entitled to it; that every just claim upon the Government should be promptly and duly paid, with interest to date; that sectional strife should be smothered in fraternal love, and that the dead issues of the war should be decently buried at Government expense. I am in favor of applying the principles of civil service reform to all the offices of the Government, so as to give entire satisfaction to those who are in as well as those who are out, and that all legislation intended to promote the prosperity of the country should be promptly enacted by Congress. On the labor question I am as sound as an oak saw log, and urge upon Congress the passage of a bill that will settle forever and set at rest all controversies between the employer and the employed. I believe that the surplus in the treasury should remain unimpaired so far as is consistent with the financial welfare of the country, and that Congress should take such action in reference to the finance as will bring the greatest good to the greatest number. I hold it to be the duty of the President to protect the prerogatives of his office, and to hand them down undiminished to his successor done up in tissue paper or in a silk handkerchief, and I will further say that if I have omitted to declare my position regarding any interest representing a considerable number of votes, it shall be my earnest endeavor to amend and enlarge my platform accordingly. The notion on my speech on is I strive to 'please,' and my aim is to merit the approbation and secure the support of all Republicans, Democrats and Mugwumps. I desire to be considered a non-partisan candidate, and would prefer that my nomination should be unanimous.

The President's message is considered by many as one of the ablest and most logical expositions of national questions which he has given to the American people. Like all of his utterances he stands out clear, characteristic and fearless in his advice and efforts for wise and wholesome legislation. What we don't know about the money question and the tariff would fill a very large book, but we do believe that the President is right in his financial views and his tariff reform policy. He advocates gold money as the only National standard of value; as the only intrinsic and current coin of the universe.

Mr. Cleveland is not opposed to silver as money. He recognizes it as a necessary part of our circulating medium, but it must ever be subordinate to gold as our standard. The statute law that could make silver universally as good as gold, could do the same with a poker chip or a tin tobacco tin.

Does gold require legislation in order to make it a reliable standard of value? No, because it is inherently the standard.

The President points out the significant fact that the United States already stands committed to a debt of \$500,000,000, payable in gold, and that under our present financial policy, although we pay out nearly a hundred millions in gold yearly, we do not reduce our debt one dollar. The present Congress is now confronted by a serious condition and not a so-called Democratic theory, viz: The enactment of legislation which will stop the depletion of the gold reserve in the Treasury, without resorting to the chaotic and pernicious, but eminently necessary, policy of the issuance of interest bearing gold bonds, thus further increasing Wall street's mortgage on the country, and pouring our cash into the coffers of the Rothschilds.

We reiterate that the Fifty-fourth Congress will find itself between the devil and the deep sea, both on the bond question and the tariff question.

The new Democratic tariff law is now working like a high-pressure triple-expansion engine, for the general revival of business, and the Republicans dare not monkey, tamper nor tinker with it for fear of bringing upon the country another panic, and thus throwing any obstacle whatever in the way of the election of a Republican President in 1896. On this head a prominent Republican remarks as follows:

The Republicans cannot afford to open up the

GOOD FOR EVERYBODY

and everyone needs it at all times of the year. Malaria is always about, and the only preventive and relief is to keep the Liver active. You must help the Liver a bit, and the best helper is the Old Friend, SIMMONS' LIVER REGULATOR, the RED Z.

Mr. C. H. H. of Lancaster, Ohio, says: "SIMMONS' LIVER REGULATOR cured a case of Malarial Fever of three years' standing for me, and less than one bottle did the business. I shall use it when in need, and recommend it."

Be sure that you get it. Always look for the RED Z on the package. And don't forget the word REGULATOR. It is SIMMONS' LIVER REGULATOR, and there is only one, and every one who takes it is sure to be benefited. THE BENEFIT IS ALL IN THE REMEDY. Take it also for Biliousness and Sick Headache; both are caused by a sluggish Liver.

J. H. Zeilin & Co., Philadelphia.

tariff question. If an attempt is made to make up the deficiency of revenue by a duty on wool, or any other article of import, every industry will rush in and demand an adjustment of the duties so as to afford it greater protection. We are not now in position to satisfy these demands, and had better not touch the tariff question at all during the coming Congress.

The inference is that the Republicans will conduct their program upon the Fabian policy of delay, until after the next Presidential election.

It has already been predicted here that the second session of the Fifty-fourth Congress will be the most corrupt the United States ever had.

The United States Supreme Court has disposed of all of the 770 cases on the calendar at the beginning of the fall term. This fact is unprecedented in the annals of the court, and is evidence that these 10,000 Justices are not only drawing their salary but earning it.

The President and family have moved from Woodley and are again occupants of the White House. The President and Mrs. Cleveland are both fond of driving, and are out most every day in an open Victoria. They drive about in unpretentious style, with no footman, the driver alone doing duty. The President's horses are all spirited bays. He has several pair of Kentucky harness horses.

Rev. Dr. Talmage has recently exchanged his residence in Brooklyn, for a commodious dwelling on Massachusetts avenue. This would indicate that the great divine is to make the Capital his permanent home.

Mrs. C. S. Grant recently purchased for \$50,000, a handsome residence on Massachusetts avenue.

Uncle Sam's mint at Philadelphia has been for the past two months coining one-cent pieces. The average daily coinage amounts to 150,000 pennies, or \$1,500. There seems to be a universal demand for small coin.

A costly monument is shortly to be erected in Arlington Cemetery over the remains of the late General Green Clay Smith, of Kentucky.

A handsome oil painting of ex-President Harrison is soon to be hung in the White House. The painting cost \$2,500, and was executed by an American artist.

That psychological phenomenon, Edgar Allan Poe, was at one time, during his brief and meteoric career, a sojourner at Washington, and it has become a tradition that he wrote "The Raven" in a dwelling which is still standing on New York avenue.

The following lines are from a short poem, which, it is said, was also composed by Poe in the same house here:

Thou wast that all to me, love,
For which my soul did pine,
A green isle in the sea, love,
A fountain and a shrine,
All wreathed with fairy fruits and flowers,
And all the flowers were mine.

Poe is decidedly the most brilliant mind that this country has yet produced. He was almost supernaturally learned in science and literature, but seemed to have been utterly devoid of moral stamina, and died in Baltimore in 1849, from melancholia superinduced by drink.

Another Maysville man is coming to the front in Washington. Mr. Bruce Austin, once a valued employee of the BULLETIN, was on Tuesday, December 3rd, unanimously elected Chairman of the chapel of printers in the Treasury Branch. This is a subordinate body directly under the control of Typographical Union No. 107, of this city. The honor was unsought by Mr. Austin, and his numerous friends in old Maysville will rejoice to learn of his success. Mr. Austin is still employed under Hon. J. Dexter Kehoe.

Congressman Pugh, of Vanceburg, the new Republican Representative from the Maysville district, arrived November 30th and is registered at the Ebbitt.

Senator Ben Tilman, the anarchist-pop. from North Carolina, it is said, will introduce a bill in the Senate to plow up the Capital park and plant it in corn.

The Honorable J. Harry Miner is the euphonious cognomen of one of the young Republican members of the House from New York City. Of him it is said that he registered at a swell hotel as "Mr. J. Harry Miner and valet." The next fellow came along and wrote under it: "Mr. J. S. So-and-so and valet."

NEW BRIDGE AT LIMESTONE.

The Work of Erecting It Was Completed Friday Afternoon.

The C. and O. now has a new iron bridge over Limestone Creek. The work of erecting it was completed yesterday. The new structure is heavier than the old one, but not as wide.

The heavy girders and cross pieces had all been riveted and bolted in their proper places at the C. and O. and K. C. junction, and after the 10 o'clock train passed East yesterday morning the bridge was moved over on the track, iron blocks placed under it so it would slide over the rails, and the yard engine was then hitched to it and pulled it down to the desired position of the old bridge.

By means of blocks and screws, it was now elevated, the track was removed and the heavy iron structure was soon lowered to its place on the abutments.

The work required only a few hours time, as trains were running over the new bridge at a quarter to 3 o'clock. The eastbound F. F. V. was delayed here about one hour.

The abutments at Limestone Creek will be widened next spring and a double track will be put down so as to complete the double track from Broshears to the fair grounds.

FORMOSAN WAR.

Japanese Return Home After a Brilliant Campaign.

TOKIO, Dec. 14.—The imperial guards, decimated by disease indigenous in Formosa and by casualties in the field, have returned to Tokio and received an enthusiastic welcome from the citizens.

Intelligence from Korea is to the effect that the leaders of the ministerial faction, i. e., the relatives and partisans of the queen, are busily devising plans to avenge her majesty's murder and drive their enemies out of office. Japanese correspondents confidently allege that several of the conspirators are concealed in the Russian legation, and that their program is to gain possession of the king's person, in the first place, after which an antiprogressive cabinet, the members of which are already fixed, will replace the present ministry. It does not appear that the ministerial faction have any power to put such a scheme into execution.

The List of Punishments

He was executed together with the four other ringleaders, at the public execution ground of Foo-Chow, on Nov. 4. The number of men executed totals 26.
